Answers.

A1. The two men are the Wright brothers.

A2. They are believed to be the first people to fly a powered plane.

A3. The year is 1903, just over 100 years ago.

A4. This plane was powered by petrol.

A5. In 1903 there were 1.6 billion humans. Today there are over 6.7 billion.

A6. We are not sure, probably less than 50kg CO₂.

- Q1. Who are these two men?
- Q2. What are they famous for?
- Q3. What year is this?
- Q4. What fuel was this plane using?
- Q5. How many humans were there in 1903 and how many today?
- Q6. How many kilograms of greenhouse emissions did this flight produce?

Answer the questions:

- How many tons of CO2 did each passenger produce on this flight?
- How many countries did they visit?
- How many times did they take off?
- Which city was their departure point?
- Which was the longest flight?
- How many kilometers was the whole trip?
