

BENEATH HILL 60
THE SILENT WAR

Wednesday, April 29, 2009

Dear Guy,

Beneath Hill 60 is a Feature Film project set to be filmed entirely on location in Townsville. Its gripping true story, based on the WWI of Australia, Captain Oliver Woodward pays homage to the Australians who gave the ultimate sacrifice for their young nation.

The creative team and most of the Heads of Department in the crew, as well as Principal cast members are from Sydney, where the project was developed will need to travel to Townsville for the stages of Pre Production and Production (film shoot).

This means we will be travelling a lot by air.

It is wonderful to be able to reduce our carbon footprint with Beneath Hill 60 by joining My Clean Sky and offsetting all our carbon emissions from air travel.

We can move forward with this exciting Australian film project, proud in the knowledge that together with My Clean Sky we have offset the impact on the fragile environment.

It is a very positive step towards an environmentally friendly and sustainable future, which businesses and corporations are now able to play an active part.

With very best wishes from the team at Beneath Hill 60.
