My Clean Sky  
Attn. Guy Lane  
PO Box 1203  
Townsville QLD 4810

Dear Guy,

**RE: Carbon Offsetting for business air travel at Tropical Energy Solutions**

Following your introduction of the new carbon offsetting tools under the My Clean Sky program we decided to commit our company to offset all its air travel carbon emissions by using the online tool on your website.

We will commence this with immediate effect and appreciate your use of locally produced and managed carbon credits. Our company's emissions are comparatively small but we hope that our action can encourage other SME's to make similar commitments.

With kind regards

Frank Dallmeyer
